

## Industrial Ozone Room Monitor and Controller

### Monitor Features

- \* Can be added to most existing ArtiClean systems
- \* Utilizes High End Replaceable Aeroqual Ozone sensors
- \* Ozone Ready Light Assures system is working
- \* Alert if sensor is failure
- \* Three Detectable levels of Ozone
- \* Shuts off Ozone production if High Levels are Detected
- \* Resets when Ozone levels have returned to normal
- \* Preassembled, just two wires to connect in Generator
- \* 30 foot cable included to remote mount sensor head in working area
- \* Plugs directly into main power source on AW and AWC Series units
- \* 115 volt service needed for Econozone and AT Systems
- \* Self Diagnostic
- \* Wall Mounted

### Controller Features

- \* Active sampling for higher accuracy
- \* LED sensor status indicator
- \* Rapid T90 response
- \* Replaceable sensor head
- \* Wall of ceiling mountable
- \* External control signals
