

DRY CLEANING PRESSES

PONY USA
FINISHING FIRST

WWW.PONY-USA.COM

Finishing presses for the laundry, drycleaning and manufacturing industries.

Wide range of professional finishing presses with a compact design, combining power, functionality and rapidity. Four different lines are produced to allow a rational and diversified choice, able to meet all requirements. Presses are available with different shaped heads and bucks both padded (steaming head and steam/vacuum buck; also blowing by request) or with nickel-plated polished head (steaming and vacuum buck). All presses are ready for connection to external steam and vacuum supplies.

CPS-Colox press special

Air operated presses with one plus one button head closing complete with head safety guard.

Highly professional, with very fast head movement and extra strong adjustable squeezing pressure.

Features:

- a balanced head using special self adjusting springs allowing optimal alignment of head and buck;
- the head opens to an angle of 60° - Copious and instant live steam production thanks to pneumatic valves for steam distribution to both the head and buck - Easy access to the controls with an adjustable pedal for the maximum comfort of the operator (CPS-U and CP-UP).

Included as standard:

UP

- automatic system of the finishing cycle;
- steam iron assembly.

U

- steam iron assembly.
